Stockholm 11 August, 2015

## Additional order from Bard

**Bactiguard has received a major, one off order from C.R. Bard (Bard) intended to increase their safety stock of Bactiguard-coated Foleys for infection control. The order will generate additional sales for Bactiguard of approximately 28 MSEK in the third quarter and make a positive contribution to cash flow.**

The additional order will lead to higher total sales to Bard for 2015 compared to last year. Excluding this order, the underlying volume of coating concentrate delivered to Bard in 2015 is not expected to be affected.

“Sales of Bard’s Foleys with Bactiguard’s infection control coating have been stable over a long period of time. It is therefore encouraging that Bard has to increase the safety stock to meet its production targets, which has a positive impact on our revenues and makes a significant contribution to cash flow,” says Christian Kinch, CEO.

**About Bactiguard**

Bactiguard is a Swedish medtech company with a mission of preventing healthcare associated infections, reducing the use of antibiotics and saving lives by developing and supplying infection prevention solutions for the healthcare industry. The company’s patented coating prevents healthcare associated infections by reducing bacterial adhesion and growth on medical devices. Bactiguard®-coated urinary catheters are market leading in the US and Japan, and in recent years the company has developed its own product portfolio of catheters for the urinary and respiratory tract and the blood stream. Bactiguard is currently in a strong expansion phase, focused on new markets in the Europe, Middle East, Asia, Latin America and Southern Africa. The company has market presence in some 50 countries and has about 60 employees. Its headquarters are located in Stockholm and production facilities in Sweden and Malaysia. Bactiguard is listed on Nasdaq Stockholm. Read more about Bactiguard at [www.bactiguard.com](http://www.bactiguard.com).
