

Executive Management Invests in Bactiguard

The Executive Management in Bactiguard has been offered an opportunity to invest in the company by purchasing a sizeable number of shares. Other members of senior management have also been offered the opportunity to purchase shares.

The transaction was enabled by the two major shareholders Christian Kinch and Thomas von Koch, who have offered management to purchase a total of 751 013 shares of serie B, corresponding to a value of approx 9.2 MSEK. The total number of shares in the company amounts to 33 302 373. After the transaction, the two main shareholders each own shares representing 29.4 percent of the shares and 40.1 percent of the votes in the company.

“It is very encouraging to be presented with such an opportunity to invest in the company, where we all contribute to build for the future”, says Nina Nilsson, Head of Marketing and member of Executive Management.

The investment by management comprises 751 013 shares of serie B and was made at a price of SEK 12.25 (the average closing price five days prior to and five days after the release of the interim report for the first quarter 2016, on May 12). The acquisitions were made on May 19, after close of trading on Nasdaq Stockholm.

“Our aim has been to offer senior management an opportunity to take part in the future development of the company as shareholders. Therefore, it is encouraging that we have been met by such a great interest, where management show their commitment to the company by making an investment of this size”, says the company’s main shareholders Christian Kinch and Thomas von Koch.

The senior managers who have taken the decision to purchase shares from the main shareholders have committed to keeping the investment for at least one year.

About Bactiguard

Bactiguard is a Swedish medtech company with a global presence, offering a solution that prevents healthcare associated infections caused by medical devices. By preventing infections, we contribute to a reduced use of antibiotics and the spread of multi-resistant bacteria, which is a growing problem worldwide. We save lives, increase patient safety and significantly reduce the cost for the healthcare and society. Our technology is well-proven, safe and tissue friendly and consist of a thin layer of noble metals that prevents bacterial growth. The coating can be applied on almost all medical devices. Bactiguard-coated urinary catheters are market leading in the US and Japan and the company has also its own product portfolio consisting of Foley catheters, central venous catheters and endotracheal tubes. Bactiguard is a growth company, focused on markets in Europe, Middle East, Asia and Latin America. The company has about 70 employees worldwide, mainly at the headquarters in Stockholm and the production facility in Malaysia and is listed on Nasdaq Stockholm.
