## About Bactiguard

*Bactiguard is a global MedTech company developing safe and biocompatible technology to prevent medical device related infections. The unique technology is based on an ultra-thin noble metal coating that prevents bacterial adhesion and biofilm formation on medical devices. The company focuses on five strategic therapeutic areas where infection rates create high medical needs for infection prevention. These areas include Orthopedics, Cardiology, Neurology, Urology, and Vascular Access.*

*Bactiguard operates through license partnerships with leading global MedTech companies that apply the technology to their medical devices. The company also has a portfolio of wound management products. Bactiguard's infection prevention solutions decrease patient suffering, save lives, and unburden healthcare resources while also fighting against antimicrobial resistance, one of the most serious threats to global health and modern medicine. Bactiguard is headquartered in Stockholm and is listed on Nasdaq Stockholm and is included in the Mid-Cap segment.*
