## New major order from China

### ***Bactiguard has received a new major order from China of 100 000 Bactiguard coated Foley catheters for infection prevention***

We have received a new major order from our distributor in China, Jian An Pharmaceuticals. The order is for 100,000 BIP Foley catheters, which is the same quantity as the initial order received in early 2016. The order will be delivered during Q4 2016 and will generate sales revenue of approximately 3 million SEK.

“Sales and marketing activities in China are ongoing with a high level of intensity. Our distributor is well in the process of opening up the first 100 hospital accounts and needs to restock their inventory. We see this repeat order as confirmation that the Chinese market represents a very large potential for Bactiguard.” says Cecilia Edström, Vice President Sales & New Business.

**About Bactiguard**

*Bactiguard is a Swedish medtech company with a mission of preventing healthcare associated infections, reducing the use of antibiotics and saving lives by developing and supplying infection prevention solutions for the healthcare industry. The company's patented coating prevents healthcare associated infections by reducing bacterial adhesion and growth on medical devices. Bactiguard-coated urinary catheters are market leading in the US and Japan, and in recent years the company has developed its own product portfolio of catheters for the urinary and respiratory tract and the blood stream. Bactiguard is currently in a strong expansion phase, focused on new markets in the Europe, Middle East, Asia, South America and Southern Africa. The company has market presence in some 50 countries and has about 60 employees. Its headquarters is located in Stockholm and production facilities in Sweden and Malaysia. Bactiguard is listed on Nasdaq Stockholm. Read more about Bactiguard at [www.bactiguard.com](http://www.bactiguard.com).*
